

Ankit Kumar

Kharar, Punjab | Email | Phone | GitHub | LeetCode | LinkedIn

Professional Summary

Full Stack Developer with 1 year of internship experience in MERN and Next.js stacks. Skilled in building scalable web applications, RESTful APIs, third-party integrations (Stripe, Printful), and cloud deployment via Vercel. Proficient in responsive design, authentication, and backend architecture.

Education

Chandigarh University, Mohali, India Sept 2021 – Jun 2025
Bachelor of Engineering in Computer Science | CGPA: 7.22
Rajdeo Singh College, Siwan, India 2018 – 2020
Intermediate (XII) | Percentage: 67.00

Skills

Languages: JavaScript, TypeScript, C++ , SQL
Technologies: React, Node.js, Express.js, MongoDB, REST APIs, Tailwind CSS, AWS
Tools: Git, GitHub, Postman, Figma
Soft Skills: Team Leadership, Agile Development, Project Management

Experience

Software Developer (Full-time), Suh Tech Private Limited – Noida, India Jul 2023 – Present

- Leading a team of 4 developers to build and maintain scalable applications including LMS, ERP, and e-commerce systems.
- Developed and optimized REST APIs, integrated third-party services, and implemented secure authentication and authorization.
- Enhanced application performance, debugging, and deployment pipelines to ensure reliability and scalability.
- Contributed to both frontend (React, Tailwind CSS) and backend (Node.js, Express, MongoDB) development.

Full Stack Developer (Remote Internship), Seorce – India May 2025 – Present

- Led frontend development using Figma designs to build responsive, modular UI components for a modern SEO SaaS platform.
- Built backend logic and REST APIs for tools such as Keyword Explorer and Rank Tracker Crawler, including crawling pipelines and keyword analysis.
- Contributed across the full stack — from database design to UI integration — ensuring seamless data flow and performance.

Project Link: app.seorce.com

Team Lead (Remote Internship), BuildMyn – Prayagraj, India Aug 2024 – Dec 2024

- Led a team to deliver the complete vendor module, including onboarding, order creation, and subscription logic.
- Designed dashboard logic, middleware for role-based authentication, and secure API routes.
- Coordinated frontend development using React and ensured integration with backend services.

Projects

AI Content Suite — AI-Powered Productivity Platform Jul 2025 – Jul 2025

- Full-featured AI content generation platform with tools for writing LinkedIn messages, emails, thank-you notes, resumes, cover letters, interview prep, and more.
- Uses advanced NLP models and OpenAI APIs to generate human-like content for various professional scenarios.
- Developed using React and Tailwind CSS, integrated with AI APIs, and deployed via Vercel.

Art of QR — Artistic Cufic QR Code Generator Jan 2025 – Mar 2025

- Built a full-stack platform to generate stylized QR codes using English text rendered in a grid-based layout inspired by traditional Arabic Cufic spacing patterns.
- Integrated Stripe for secure payments and Printful API for automated order handling and product fulfillment.
- Developed with Next.js (SSR), Node.js, and Express, deployed on Vercel, with a modern, responsive UI built using Tailwind CSS.
